

RESERVATIONS

You are invited to spend an exciting and challenging evening exploring the Manned Space Flight Program. This event is designed specifically for JROTC members only.

Program includes:

- Presentations by NASA Engineers
- Hands-on Activities
- Private Tram Tour of Johnson Space Center
- 2 Giant Screen movies
- Two visits to Space Center Houston
- One or two night stays at an area hotel
- Dinner at Space Center Houston
- Continental Breakfast at hotel

\$85 per Cadet

\$70 per adult chaperone

(within a 1:10 ratio).

Build a Robotic Arm

Learn the importance of robotics in space flight. Cadets become NASA engineers as they attempt to construct a working robotic arm using a simple machine, within a budget.

Mission to Mars

Using communication and teamwork cadets will design a Martian colony for a two year stay on the Red Planet.

Robotic Rover

Cadets will be put in charge of their own exploration mission as they

build a motorized rover that will explore the farthest reaches of Mars.

NASA Presentations

NASA guest speakers will teach cadets about the many facets of the space program.

Program Schedule

Day 1

- 5:30pm Arrive SCH
- 5:45pm NASA Guest Speaker
- 6:30pm Dinner
- 7:00pm 1st Activity
- 8:00pm 2nd Activity
- 9:00pm 3rd Activity
- 10:00pm Wrap Up
- 10:15pm Depart SCH

Day 2

- 8:15am Arrive SCH
- 8:30pm Giant Screen Film
- 9:00am Private Tram Tour
- 10:15am Explore SCH

Schedule is subject to change

Aircraft Operations :

Special Tours at Ellington Field

A plane that creates free-fall, high altitude research aircraft, T-38's and the Super Guppy...Johnson Space Center's Aircraft Operations has it all! *Hear how aeronautics is part of the future of space exploration and introduce aeronautical careers to your cadets.* Reserve your reservation with Education Programs. Space is limited!

Cost per person is \$6

Lone Star Flight Museum

See vintage World War II aircraft. The museum offers a guided tour through aviation history.

Admission is \$6 per person.

Reservations made through
