

## Explore The Closest Thing to Space on Earth

Space Center Houston strives to help scouts achieve their individual scout badges and electives by engaging them in an interactive and hands-on learning environment. The interaction between Space Center Houston staff, scout leaders, scouts, and parents is promoted through small group settings that not only engages scouts, but inspires them to create, learn, and grow as individuals within their group. Each Camp-In is tailored to the individual age of the scouts and the specific scout requirements to help complete the required aspects of a badge or adventure.

### Unique Organization Specific Adventures

#### 1. **Brownies – Home Scientist: *It's your world – change it!***

Find out about the science all around you, it's everywhere.

- Be a kitchen chemist and see how we can use liquid nitrogen to make ice cream.
- Dive into density and make something bubble up. Campers will take home their very own Martian slime.
- Discover how static electricity works and make your hair dance just like the astronauts hair on the International Space Station.

#### 2. **Juniors – Energize: *It's your planet – love it!***

Get moving and transform your energy from potential to kinetic!

- Discover what creates light pollution and learn how to make your own Nano-flashlight.
- Make the wind work for you when you transform wind power into chemical energy that can power your home.
- Explore different forms of energy with the help of our Van-de-Graaff machine and energy show. It is a hair-raising experience!

#### 3. **Cadettes – Badge Design: *Space Scientist***

Find out what it takes to live among the stars!

- Discover fun facts about the International Space Station and what astronauts need to do to survive in space.
- Re-Hydrate with science and learn what happens to the body with too much sugar and not enough water.
- A.N.T.S. on mars! Make them work for you when you recover key components from the Martian surface. Team-work is the key.

### Every program includes

- Buffet dinner served at Space Center Houston.
- Exciting, program specific hands-on activities that are designed to assist with badge and achievement goals.
- Opportunity to sleep amongst historic flown space artifacts and national treasures.
- Buffet breakfast served at Space Center Houston.
- Private guided tram-tour to NASA Johnson Space Center.
- Second-day visit to Space Center Houston.

### Program price

- \$59.95 per student
- \$49.95 per adult
- \$15 per T-shirt (optional)
