Soar with the Future of Flight at Space Center Houston's New Summer Exhibit

Above and Beyond, April 21-Sept. 9

Visitors will transform their entire bodies into virtual birds, using motion-sensing technology to manipulate their avatars at Space Center Houston's new summer exhibit Above and Beyond April 21-Sept. 9. Above and Beyond, presented by Boeing and made possible locally by Coca-Cola, explores the advances in aviation and aerospace from the first powered flights to the latest innovations on Earth and in space. Learn more about Space Center Houston and the more than 400 things to experience here at spacecenter.org.

###

The Manned Space Flight Education Foundation is a 501(c)(3) nonprofit science and space exploration learning center with extensive educational programs. Space Center Houston is the cornerstone of its mission to inspire all generations through the wonders of space exploration. The center draws 1 million visitors annually, was called "The Big Draw" by USA Today and generates a \$73 million annual economic impact in the greater Houston area. Space Center Houston is a Smithsonian Affiliate and the Official Visitor Center of NASA Johnson Space Center. More than 250,000 teachers and students from around the world visit the center annually to experience our educational space museum with more than 400 things to see and do. For more information, go to www.spacecenter.org.
