

Information for Journalists Interested in Space Center Houston Stories

We welcome journalists to work with us on a story about Space Center Houston, which is owned and operated by the nonprofit Manned Space Flight Education Foundation.

Our News Center

All media, film companies and photographers requesting interviews about Space Center Houston or wishing to film at the center **must complete the Media Inquiry Form**, found in our online news center, and send it to communications@spacecenter.org. The news center also has downloadable news releases, photos, logos, fact sheets and B-roll. **To access the Space Center Houston News Center, visit spacecenter.org/news**

Want to receive our news releases? Please email communications@spacecenter.org.

We open the landmark shuttle carrier aircraft and shuttle *Independence* complex in late 2015.

To plan your trip or a trip for your readers or viewers, visit spacecenter.org/visitor for “insider” tips on making a visit easy, educational and the best it can be, our hours of operation (varies throughout the year) and ticket prices.

About our foundation and center

Owned and operated by the nonprofit Manned Space Flight Education Foundation. Space Center Houston is a museum that is the first and only Smithsonian Affiliate in Houston, a renowned attraction and the Official Visitor Center of NASA Johnson Space Center.

With more than 800,000 visitors a year, Space Center Houston was called the “the big draw” by USA Today and features more than 400 space artifacts, new exhibits year-round and exciting attractions about the space program. Dedicated to inspiring youth in careers in science, technology, engineering and mathematics, 100,000 teachers and students from around the world take part annually in education programs at the center.

The Manned Space Flight Education Foundation Inc. is a 501(c)(3) nonprofit. Annually, it has more than 800,000 visitors and a \$45 million economic impact on the Houston region.

The new exhibit the Orion capsule prototype used to train astronauts for a future mission to Mars will open later this year at Space Center Houston.
