

An Orion spacecraft is shown in space, with the Earth in the background. The spacecraft is white and has a large, dark, conical nose cone. It has two large solar panel arrays extending from its sides. The Earth is a large, blue and white sphere in the background. The text "I'm Over the Moon for You" is written in white on the right side of the image.

I'm Over  
the Moon  
for You

The Orion spacecraft launched on the most powerful rocket in the world and traveled thousands of miles beyond the Moon, farther than any spacecraft built for humans has ever flown, over the course of about a three-week mission.
